Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The proposed amendments would overcome rejections associated with written description and enablement as related to written description and type of immune response. The remain issue would be the mode of administration. The Examiner reiterated the standing in Office action paper#11, agreed to withdraw finality, and suggested that applicants submit evidence to support their arguments with regard to broadly claiming any mode of administration for achieving vaccine effect.
